Learning Solutions

**From Access Comes Equity.
Create Limitless Learning.**

EDUCATION FOR ANY ONE

A Changing Education Landscape

The world around us has changed forever. And Stride has always been ready. Distance learning is now an integral aspect of learning—for all levels—around the world. Stride Learning Solutions helps districts find a promising path forward.

97.6% of students are experiencing changes in learning due to school closures.*

42% of parents are worried that the current situation will negatively impact their child's learning.*

85% of parents said U.S. public schools should be prepared and equipped to shift to an online learning environment by fall 2020.**

82% of parents think more resources and training for teachers in online instruction would improve learning at home.**

1 in 5 teachers are unlikely to return to reopened classrooms this fall.†

83% of teachers also say they haven't been able to do their job properly since starting to teach remotely, a task that most say they hadn't been prepared well by the district to do.†

A [separate] poll of parents with at least one child in grades K–12 finds that 6 in 10 say they would be likely to pursue at-home learning options instead of sending back their children this fall. Nearly a third of parents, 30%, say they are “very likely” to do that.†

We also know that ...

92% of future jobs are estimated to require digital skills.

82% of teachers think that using technology in the classroom better prepares students for future careers.‡

Districts need to keep students safe, engaged, and enrolled under new and changing circumstances while providing learning experiences that promote collaboration, communication, critical thinking, and problem-solving. **We can help.**

Stride Learning Solutions has the tools and resources to solve for today's challenges and change for tomorrow.

- 1. Create equity through access** by responding to the wide range of different learning needs in your school and community. Ensure teachers and students have access to online curriculum and training. Deliver online learning that is equitable for all students.
- 2. Establish a safe online learning environment** for students and educators, increasing family and staff satisfaction, and retaining students and funding in your district.
- 3. Prepare for an evolving future** and help improve student outcomes with personalized, engaging online learning experiences that help students develop the ability to work independently, take purposeful initiative, and gain a sense of self through project-based learning.
- 4. Adapt to a district's infrastructure**, eliminating the need for multiple logins and making it easy and accessible for administrators, teachers, and students to better manage online learning.
- 5. Deliver the training that leaders, teachers, counselors, and parents** need to be successful with effective online teaching and learning experiences.

Why Stride Learning Solutions?

Delivered **MILLIONS OF ONLINE COURSES** over the past 10 years to public school districts, charter schools, private schools, and students

In Their Words | Client Testimonials

“As we have learned more about students and how they learn and being able to meet their needs, we’ve been really working towards that 21st Century student... being able to offer them different atmospheres, different classroom models to meet their needs. The Flex Model has allowed us to really look at students and individualize and support them. With this we’ve been able to reach some of those students that maybe school wasn’t their favorite thing.”

MINDY BARRON,
Technology Coach, Hermiston High School, Oregon

“When you’re looking at providing a digital curriculum, or a virtual learning space, you need to work with someone that obviously knows what they’re doing, that has the resources, that’s committed to the process, and that is known beyond your local little area.”

DON MANN, EDD
Director of Secondary Education, Conestoga
Valley School District, Pennsylvania

“A major impact for me is Summit [curriculum]’s ability to individualize learning and choose different pathways. In our special-needs, alternative education setting that is crucial. Overall, I think Summit is amazing when it comes to rich curriculum that is easy to use and differentiate for students’ needs. I feel like the [Stride] curriculum is so rich and broad. [Stride] has also done a great job in making sure we’re hitting the standards—it’s a no-brainer; we don’t have to think about that. Also, diving deep into [Stride] Brightspace reports is invaluable. It’s imperative for me to know, for instance, if a student has logged in but hasn’t put any time into the class.”

ANNIE BAMMESBERGER, ENGLISH TEACHER
Colorado Springs, District 11 - Achieve Online

“Flexible programs provide instructional decision-making where it should be—with the professionals in the classroom. Those who are most responsible for delivery of curriculum and instruction should be the ones to use assessments wisely and make decisions that work best for student learning. If our students don’t experience some online learning, including some of the time management that is associated with this method of learning, we will not have prepared them well for college and life.”

DR. ALICE DEWITTIE, PRINCIPAL
Summit High School
Bend-La Pine School District, Oregon
