

# Discover a Big Universe™ of Literature

## Big Universe

Now featuring a powerful  
new Reading Fluency Tool!  
See *inside* to learn more.

Boost your balanced literacy program  
with our digital reading platform  
for students in grades K-12

# WHAT COULD YOU DO WITH MORE BOOKS?

High-interest literature is critical to **sparking a student's love for reading**, especially in the formative years. With Big Universe, students can access thousands of leveled eBooks and balanced literacy tools, which are available **24/7 on any smartphone, tablet, laptop, or other computer.**

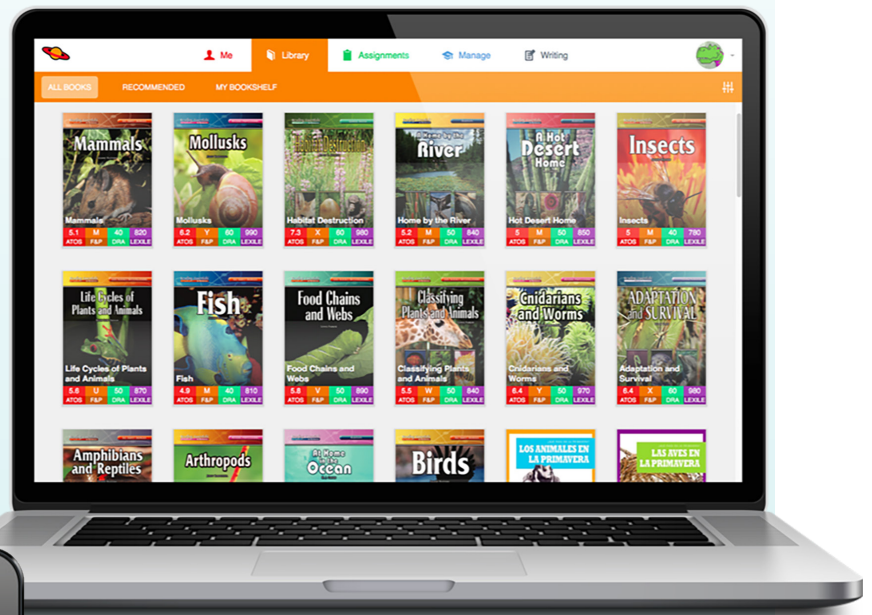

## ENGAGING LITERATURE

Big Universe™ offers an expansive digital library filled with authentic books from more than 40 publishers.

### Leveled eBooks

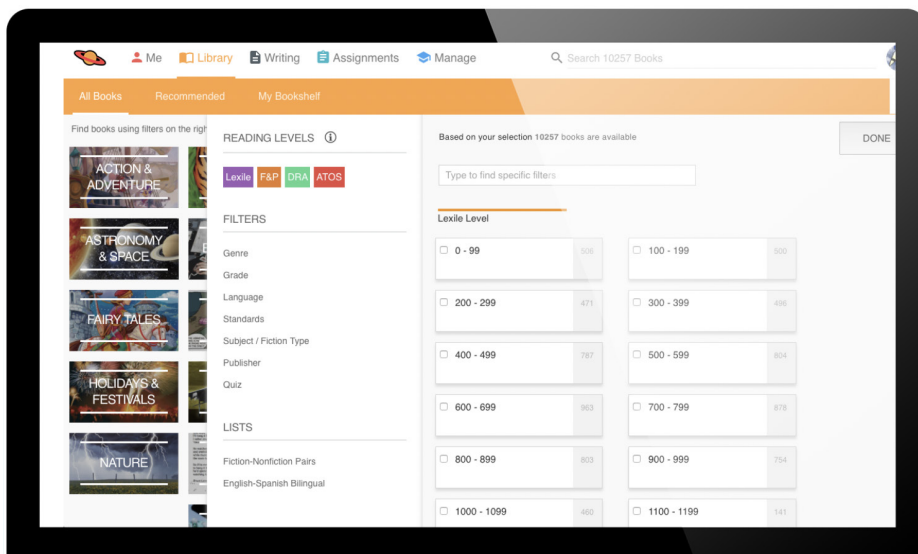

- **17,000+ eBooks** support K-12 cross-curricular teaching and differentiated instruction
- Includes **nonfiction-fiction pairs, Hi-Lo, and more than 1,450 books in Spanish**
- Leveled by Lexile, Fountas & Pinnell, DRA, and ATOS®
- Our eBook titles **cover a wide variety of topics** from science and math to social studies, language arts—and more!
- All eBooks are **accessible 24/7 on any device**

## PERSONALIZED CONTENT

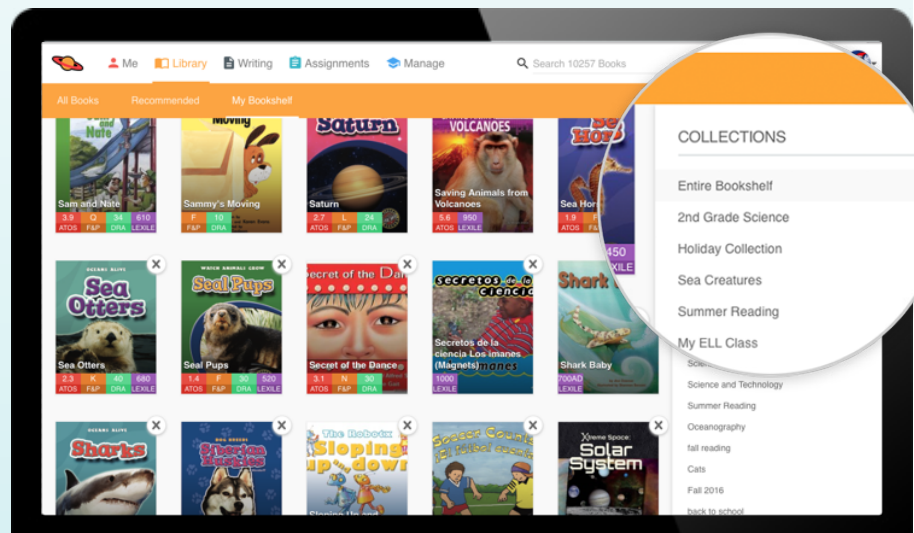

Independent reading is critical in reading gains. **Students read more often when they can select their own literature.** With Big Universe, students can save their favorite books to their personal bookshelves for independent reading, literature circles, book clubs, enrichment, research projects, and more.

Teachers and students can utilize the powerful search functions to find eBooks by:

- Subject
  - Genre
  - Grade level
  - Lexile® level
  - Language
  - Publisher
- ... and much more!

- Teachers can assign recommended or required readings
- Students can build their own unique and personalized bookshelf

# ROBUST MANAGEMENT TOOLS

## Our New Reading Fluency Tools is a Real Time-Saver for Teachers!

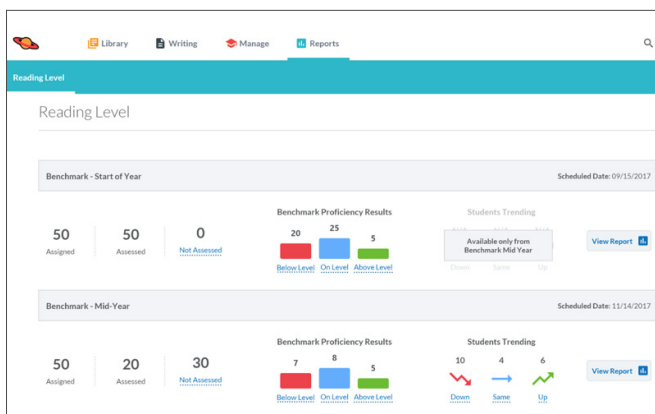

Our Reading Fluency tool **uses advanced speech recognition technology to listen to students** as they read aloud, retell the story, and respond to questions—and then accurately and efficiently **scores students on oral fluency, reading comprehension, and reading level.**

The tool features:

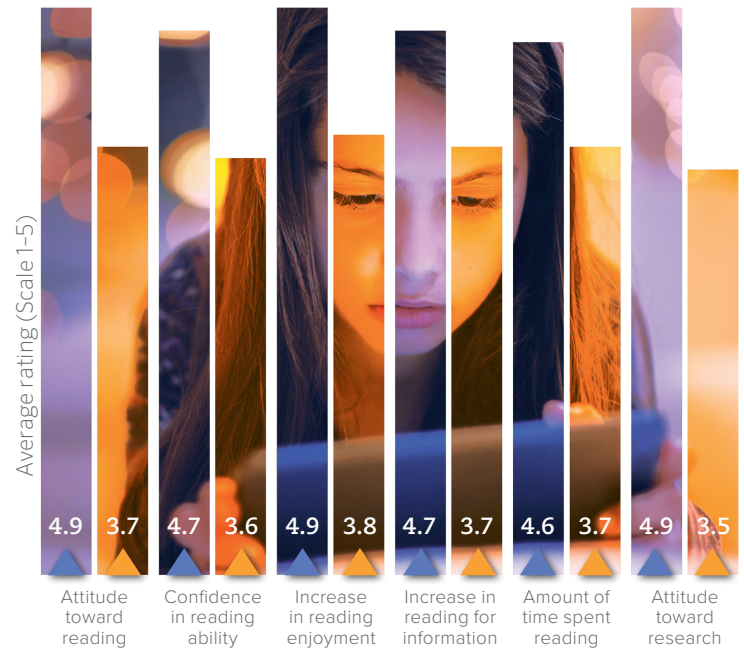

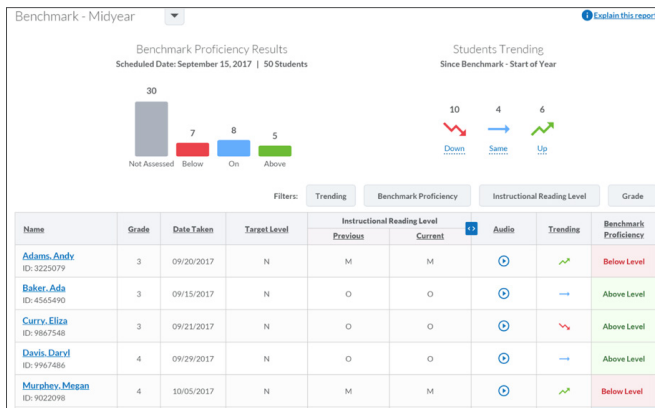

- Up to **3 benchmark assessments** per year
- Up to **7 progress-monitoring quizzes** per year
- **Reading recommendations** based on students' reading level

**Big Universe features integrated tools such as embedded assessments with instant results and analytics to demonstrate reading growth**

## Teachers can group students based on reading levels

## Teachers can monitor student growth

▲ Big Universe Users

▲ Non-Big Universe Users

## Research-backed

According to a 2014 study conducted by independent research firm SEG Measurement, fourth grade **students who used Big Universe over a six-month period showed greater improvement in reading skills** than comparable students who did not use the platform.\*

\* "A Study of the Impact of Big Universe Use on Student Reading Growth," SEG Measurement, September 2014.
